The Commandr 40 doubles the output of the Commandr 20 while still folding down to the same footprint for easy carrying and storage. Simply put, this 40 Watt unit is our most powerful solar panel available. Not only can this product charge laptops, tablets, and phones, but it is also compatible with our Generatr series to help you store large amounts of power for future use. Keep your gear charged up off the grid with peace of mind from the Commandr 40.
