With the iPhone 6's increased power needs, EnerPlex has stepped up to the challenge and created our most powerful, innovative phone case to date. The Surfr Amp for iPhone 6/6S packs more portable power than ever and will keep you charged up no matter where your day takes you. The Surfr features a 3,000 mAh battery pack built into its slim, yet durable design that will more than double the life of your phone. Just like our previous Surfr's the integrated battery pack can be charged by either a conventional wall charger or our integrated solar panel on the back of the case that can be used in emergency situations. The Surfr Amp for iPhone 6/6S is thinner than ever at 14.8mm thick and its unique curved design provides a smooth, thin contour that makes it easy to slip into a pocket or purse to take with you wherever you go. Text longer and stay out later with the Surfr Amp for iPhone 6/6S from EnerPlex
