Weighing in at only 89 grams and at only 16mm thick, users rave that this is truly the lightest and thinnest multi-function battery case on the market. The EnerPlex Surfr for iPhone 5/5S features a 2000 mAh battery pack built into its slim, yet durable design that will more than double the life of your phone. The Surfr for iPhone 5/5S's integrated battery pack can be charged via a conventional wall charger, however the major differentiator is the built in solar panel on the back of the case that can be used in emergency situations. No more dead phones while you're driving home, out at dinner, or stuck at the office late into the night. The EnerPlex Surfr for iPhone 5/5S is an easy and convenient solution for everyone.
