### How to Charge

Charge the Jmpr Mini lightning with a micro USB cable from any associated power source. During charging the Battery Status Indicator will flash. Once charged, four solid LED lights will indicate the Jmpr Mini is fully charged.

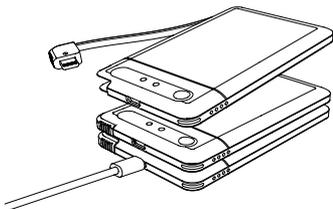

(If the Jmpr Slate 5K doesn't begin charging your device immediately, please make sure the Slate is charged before reconnecting)

### Charge your devices

Connect your electronic devices using the Jmpr Mini Lightning's Tethered Lightning Charging Cable. (If the Jmpr Mini Lightning doesn't begin charging your device immediately, please make sure it is charged before reconnecting). \*Some devices will require the user to press the power/battery indicator button to begin charging your device

### Stack n' Charge

Jmpr Mini Lightning comes with Stack n' Charge function.

You can stack the Jmpr Mini Lightning by aligning the Charging Pins over the Magnetic Charging Connectors to charge multiple Jmpr Mini Lightnings. All stacks will charge simultaneously.

### NOTES:

1. When the Jmpr Mini Lightning starts charging, the Battery Status Indicator starts blinking.
2. The Jmpr Mini Lightning must be stacked in the same direction to receive charge.
